Columbia will find her true safety to lie in a conservative franchise. It is a great stride from the condition of a Crown Colony to that of full self-government, and a Legislature composed as the present one is would scarcely be justified in precipitating a reluctant community into the depths of 'universal suffrage.' Such a reckless leap in the dark might suit the designing, self-seeking political demagogue; but it would not promote the best interests of the country. It is, therefore, matter of rejocing that the attempt which was made yesterday to place the interests of the colony in the hands of the demagogue Farming, Timber Lands and Valuable Mill Property.

ness with which the principal opponent of the measure lell in with the proposition to remove all restriction as to rates to be charged for freight and passangers, in consideration of reducing by a few months the period to be covered. It will be remembered that the Bill proposed a maximum of 8 cents a pound for freight and a very low rate for passengers. The member for Victoria District, who had been fighting the Bill all along, both in the Council and in his organ, as a monopoly dangerous to the public, at DIARIES FOR 1871. ILLUZTRATED AND OTHER ALMA-NACS for 1871! as a monopoly dangerous to the public, at once accepted the proposition to remove all restrictions, leaving the projectors to charge what they listed; and it is no more than just to the member for Cariboo to remark that he stood alone, or nearly so, in opposing the removal of these restrictions. We do not make these remarks because we fear the result of the removal of all restrictions as to price; for we feel confident that the T. N. HIBBEN & CO

Ir is a great mistake to suppose that the cause of theumatism, neuralgia or gout exists where the pain is experienced. The source of the diseases is generally "urea," in the blood, and it is one of the special properties of Dr Walker's Vegetable Vinegar Bitters to neutralise this deposit, while it renovates the relaxed kidneys and thus prevents them from permitting a portion of their secretion to escape through improper channels. Torpidity of the stomach has also much to do with the vitiation of the blood, and upon this organ the Bitters set directly as a stimulant and lavigerant. COMMUNICATIONS

From His Excellency the Governor, Mossage no 21, assenting to the Literary Institute Bill. No 22, the Supplementary Supply Bill. No 23, a Bill to repeal the Castoms duty on

liquore, His Excellency explained that the Bill passed by the Council this assision was somwhat inexplicit and the Bill now sent down would meet pretty much the case. No 4, enclosing a letter from the Munici-

pal Council in regard to the remission of duties on the fire hose, His Excellency said it was not in his power to act, and he thereupon submitted the case to the House. CUSTOMS REPEAL BILL

Hon Attorney General moved the first reading of the Customs Repeal Bill; carried and the Bill was read a first time and order-ed to be read a second time at the next sitting of the Council.

Mr Humphreys gave notice to move at an early day an address to His Excellency the Governor praying that an Act be sent down to the Council to require Sheriffs and DeputySheriffs to give bonds. INDEMNITY AGAINST ROAD STEAMERS.

Mr Humphreys gave notice that he would move to bring in a Bill to secure compensation to farmers and others.

REGISTRATION OF VOTERS BILL.

The House went into Committee on this Bill, Mr Hamley in the chair.
Clause 1 Mr DeCosmos moved that the

portion of the clause disqualifying ministers of religion be struck out.

Mr Bunster seconded the motion.

The amendment was lost and the clause passed as read.

Clause 2-Hon Attorney General moved

to strike out from the word and in the fourth to the word employment in the last

line but one.

Mr DeCosmos said he would protest against excluding Judges, Magistrates and

Constables from voting.

The Hon Attorney General's amendment

Mr Humphreys moved to add to the clause no revenue officer, clerk, or servant of the Government. He said that such

persons were not allowed to vote in England. Hon Attorney General said that all such

are allowed to vote in England by a new Act passed at the last session of Parliament. Amendment lost. Mr Bunster moved to amend the clause by adding no Minister of the gospel of any religion, denomination or sect. He hoped that this class of men might not be permited to vote; he did not so much object to

piog way of going round election eering.

Amendment lost.

The clause as amended by the Attorney

General passed.
Clause 3-Mr Humphreys moved that the Clause 3—Mr Humphreys moved that the words being able to read English and being able to read the language of his country be struck out. He said if such a restriction was retained in the Bill it would aliente many good men in the country. He said manhood, residence and registration were all that were necessary. He would ask the hon member cessary. He would ask the bon member necessary. He would ask the bon memoer for Cariboo, who had a hand in making the Bill, if he believed that there were not men in his district who voted for him who were not able to read who were as fit as he was to sit in that Council.

Hon Dr Carrall would oppose the amend ment and support the clause in its entirety. He did not think any person would be disfranchised by it. If it could be proved that any one had been disfranchised by the bilb be would be willing to amend it. It was he would be willing to amend it. It was the fault of those who could not read if they were distranced.

Hon Atto ney General said if the Government had erred in framing this clause had followed the example of other they had followed the example of other countries. It this clause was anmeded as proposed all Indians could vote, for they were British subjects. And all the Chinamen, by taking the out of allegiance could also vote, and those classes of people would outnumber the balance of the people of this colors.

Dr Helmoken was surprised that any one in favor of universal suffrage would exclude this qualification. Those who issist most on universal suffrage always require the qual-

in ation of reading and writing.

Mr Humphreys replied in a very vehement manner. He said the Government could not afford to alienate any one in the colony. In six months, or even in less time, the Government might ese their mistake. He would not give his loyalty to any country that would deprive him of his right to vote. He warned the Government of the consequences. #### The Captive Girl!

RETURN OF THE SPARROWHAWK.

The Sparrowbawk, Capt Mist, returned from Neah Bay yesterday afternoon at 31/2 o'clock. She reached Neah Bay on Sunday morning; found the US S Lincoln, N P T Co's steamer G S Wright and the colonial schooner Cambria at anchor there. Cupt Mist immediately sent for and had a 'talk' with the Indian who gave ex-Consul Francis the report of the presence of a white girl among the Mittenatts. The woman stated that the girl is a half-breed and was sold four years ago (two years before the wreck of the bark John Bright) to the Miteoahle by a neighboring tribe. Capt Mist was desir-ous of investigating the matter further, but all Sunday the weather continued boisterous all Sunday the weather continued bosterous and it was impossible to communicate with the West Coast in consequence of the heavy sea running. The Lincoln sailed yesterday morning for Puget Sound. The S B Wright was waiting in the bay for a 'slant' to run out and reach Portland. The schooner Cambria had been twice and had not hack each outside the Cape and hid put back each time. Her mate (Mr Meldrum) had broken

time. Her mate (Mr Meldrum) nau orosettime. Her mate (Mr Meldrum) nau orosettwo of his ribs during a heavy squall.

The Sparrowhawk finding it impossible to reach the Mittenabts returned to port last contained to hat it is believed that she will proceed again to the Stratts as soon as the weather shall have moderated.

PAPER FROM WOOD, SHAVINGS OR SAW-DUST .- Messrs Janion, Rnodes & Co have recently received from England samples of pulp and paper made, by a process just invented, from shavings, wood or sawdust! The pulp is strong and fibrous, and the paper as white and with as emooth a surface as that made from cotton rage. Shortly after the outbreak of the American war and the closing of the Southern ports cotton become very scarce and paper made from rage was so high that the principal English and American newspapers were printed at a lo-s for some years. At that time the London Times we believe, offered a reward of £10.000 to any person who would discover a process that would produce perfectly white paper from wood. Several years went by, the war closed, cotton cheapened and the offer of a reward was withdrawa. During last year the fortunate inventor of this new paper his upon the process and has created quite a re-volution amongst the paper makers in Eng-land and elsewhere. One mill in Berwickshire is making its paper entirely by this process and most other initis are putting down from one to six of the patent boilers. Soit fit wood is the best for it. Porty-two owt of wood will make a ton of pulp or paper. of wood will make a ton of pulp or paper. Fo make the same quantity of paper from Esparte grass will take two tons at £9 per ton, and the wood requires less caustic soda and chemicals. By the new process the wood only requires 5 hours' boiling, the other requiring 8 to 10 hours' boiling. A boiler, ceeing in England about \$2000, will coil 26 cwt in 24 hours, yielding 18 cwt of 24 hours, yielding 18 cwt of 25 hours are nowless in England about \$2000, will not paper. Cotton raws nowless in England pulp or paper. Cotton rags nowfcost in England £24 per tou, while sawdust and stavings can be had at most of the shops and mills for hauling them away. In this colons where timber is so plentiful, we can readily understand how cheaply, with proper ap pliances, newspaper might be produced.

INTERESTING TO MALTSTERS .- More than year ago the U S revenue authorities at Chicago took exception to an entry made by Aldowell & Co of Toronto of a large quantity of malt shipped from Toronto to Chicago. The malt was entered at its full value bond. It was contended that it should have excise added. The demand of the Chicago efficials was paid under protest, appeal being made to the freasury Department at Washington. The Treasury department sustained the action of the officers and refoxed reduces. Suit was instituted against the United States Government in the U S Court of Chicago, resulting in a verdict for Aldwell & Co. The Treasury Department gave notice of appeal to the Supreme Court, but on reconsideration decided to acquiescin the decision of the Court at Chicago and pay the award; so that the pluck of the Can-adian firm triumphed. The decision has an important bearing upon the trade of the United States, especially with Great Britain and the Dominion of Canada.

SIR STAFFORD NORTHCOTE ON CANADA. - In the course of a very able and most interesting lecture recently delivered on Canada, before the Crediton Working Men's Club, the Right Hon. Sir Stafford Northcote said he was much struck with Ottawa. He found the Parliamen struck with Ottawa. He found the Farlament much like that at home, with the exception that the speeches were made in either French or English. On one occasion he heard Sir George Cartier, the Prime Minister. make a speech in English and repeat it in French. On another occasion Mr. Macdonald spoke in Carlie, there was a settlement three works. another occasion Mr Macionald spoke in Gaelic—there was a settlement where nothing but Gaelic was spoken. Another member followed in Indian, then came Sir George Cartier in Latin, then a speech in Spanish, then another in the Indian tongue, and finally Sir George wound up the debate in Greek.

Union Market .- This market, which was for several years successfully conducted by Mr Jos Blackbourne, has been purchased by Mr John Winger, who will in bimself to maintain its good reputation. Mr Blackbourne, we believe, will embark in stockraising in the interior.

### Awfully Sudden Death.

MAN EATS A HEARTY DINNER, SMOKES PIPE OF TOBACCO AND DIES INSTANTLY.

Yesterday afternoon, about 21/2 o'clock, Mr Mathew Hollow, residing in a small cottage on Gordon street, opposire the Presbyterian Church, sat down to dinner with his sister Mrs Herring, and after cating heartily removed his chair to the stove and lighted a pipe of tobacco. He appeared to be in un-usually good spirits, and conversed obserfully with his sister. Presently, Mis Herring, who was washing the dishes, heard the pipe fall and, turning, saw that her brother's hands were hanging at his side, his legs were straightened out, and his head hanging over the back of the chair. Supposing him to be in a fit, she sent for Mr Humber and Mr in a fit, she sent for Mr Humber and Mr Rutherford, near neighbors, who saw that the unfortunate man was beyond hope—that while conversing with his sister, with a sentence yet unfinished, he had been struck dead! The decasted had been aiting for some weeks, but latterly was improving. The death was caused by neuralgia of the head. Mr Hollow was a stonemason by trade and had resided in the colony since 1856. He was a native of Corrwail, England, and was aged about 38 years. He was land, and was aged about 38 years. He was a member in good standing of Victoria Lodge and of the Encampment of IO of OF, of this city, by whom the remains will be fol-lowed to the grave to morrow.

Nova Scotia .- A Halifax correspondent, under date of Feb 1st says most of the members of the Legislature were in town awaiting the opening of the session on the 2nd Mr. Troop was expected to be elected Speak-His place in the Government would, i was thought remain vacant; or if not, Mr. Smith would get it preparatory to succeeding Wilkes as Attorogy General, when the latter takes the Prothonotaryship. The Governors speech would foreshadow measures for improving the Crown Land System, and for securing the independence of Parliament. It was expected the session would last months, and that the Government would be well supported, the opposition being much as it was last year,

LCCAL TRACTION ENGINE. - The steam and caloric engine of Mesers Hendry & Lockhart is well under way at the Albion Foundry and will probably be in working order in the course of two months. The inventor and proprietors are confident of immediate success and are confirmed in that confidence by the opinion of scientific and practical friends who have examined the models.

REAL ESTATE SALE .-- We would again direct attention of parties desirous of investing in real estate to the number of choice lots and other properties which Mr Lumley Franklin will offer on Friday next. The property is advantageously situated and the terms will be very liberal. In the light of improved political and mining prospects, it is not to much to say that a similar opportunity may not again occur.

LAST TRIP WITH THE MAIL. - Barnard's Cariboo Express will make its last trip with the Mainland mail to-day, Mr Barnard has performed the service for nine consecutive years and has given entire satisfaction to the Government and the public. The new contractors—Mesers Gerow and Johnson-will dispatch their express with the first mail under their contract on the Sth inst.

ALBANY RIVER GOOSE-HUNT .- A correspon dent of the Ottawa Times, writing from Moose Factory, Sept 13th 1870, alludes to the rare sport in which he was about to particiategoose-hunting on Albany River, Hudson Bay. He says: 'As many as twenty-five thousand geese have been a corned during one hunt, extending over one month. Forty thousand geese in all have been killed in one hunt. These geese are sent to the different posts and are used as food-and year, fine food there are used as food-and very fine food they are. They cost the company 21d. each.

IT Is OPEN. - Yesterday, in a paragraph about anthracite coal, we suggested that the Golden Gate of San Francisco should be thrown open to the free admission of our coal. It escaped the recollection of the writer at the moment that the Golden Gate was thrown open last year to the free admission of anthracite coal.

BROTHER JONATHAN BEATS JOHN BULL.-The London Times of Jan. 31st contains an account of a race in the barbor of Havre, between a cutter of the U S war steamer Shenandoah and that of the British war steamer Helican. The race was won by the American crew in the fastost time on record for contests of that description.

PRESERVING EGGS .- The most ready and effective way to preserve eggs has been found to consist in rubbing them over with vegetable oil, linseed oil being especially recommended for that purpose.

THE CUTTING .- Ah Sam and Ah Son, the Chinamen who cut each other with knives on Cormorant street were further examined yesterday and remanded for further testimony.

THE CALIFORNIA .- This steamer sailed yesterday morning at 71/2 o'clock for Portland. She carried a lew passengers, a mail and \$2000 in gold for Wells, Fargo & Co.

STEAMER DEPARTURES .- The Sir James Douglas for Navaimo; the Olympia and Isabel for Puget Sound, and the California for Portland, Oregon, sailed yesterday.

THE CALIFORNIA was seen in the Straits yesterday by the Sparrowhawk. As the wind was blowing freshly at the time it is believed she passed the night at Neah Bay. THE Grappler for Burrard Inlet, and the

### Letter from Nanaimo.

NANAIMO. Feb 20, 1871. EDITOR BRITISH COLONIST, — There is a remark or two in a letter of 'An Outsider,' published in the Standard last week, having reference to the miners' strike which, in justice to Nanaimo, I hope you will please allow me to rection. llow me to notice

llow me to notice Let me first premise, before proceeding to omment on the particular remarks I wish comment on the particular remarks I was specially to confute, that 'An Outsider' us ignorant of some of the matters be writes about as he is dishonest in his explanation of others. The worthy Outsider has only to be known to stamp his send of the story,' a concoction wholly unworthy o credit, composed as it is of silly incendees and downright (alsehoods. The cause of the strike purely does not

concern me, although as you are aware it has affected me unfavorably in common with others, but who is to blame; the workmen or the company, I trow not. It is certain a few well known charlatans of 'An Outsider' type fellin for a pretty good share of the imposition which the public unwittingly bore, as I shall perhaps have occasion to

explain by and type.
But to the point. Mr. Outsider says, If
other places in the colony will give as much
ecouragement as this (to immigration) it will soon die out, as a few months ago a few families came here from England, Scottaw families came here from England, Scot-land, Wales and other places. But what was the result? Why those who could get away did so, and those who could not of course had to stop and drog out a miserable existence, otherwise solicit the sympathy of strangers.

strangers.

The foregoing quotation is a wonton libel on Nanaimo and her people, and only a person so loose and untratworthy in his say anga as An Outsider would venture to make such a statement. If Outsider had never such a statement. If Outsider had have come inside Nanaimo with his trickery and deceit a few at least of those remaining here would not be quite so miserable as they are. Why, Outsider theroughly moderstands, It is a fact well known, Mr Editor, that Nanaimo has many attractions over other sections of the colony, and that very few people leave the place who do not return. An Outsider or two have left dishonorably and are best away. The climate here is very healthy, the air balmy and sweet, and ro one surely who will work and is frugal

to one surely who will work and is frugal and steady need solicit the sympathy of strangers or friends.

As to the use of powder, etc. Outrider' affects, Rip-Van-Wiskle like, to know nothing about it, and if asked I question if he wouldn't swear that no person has attempted an outrage! I would not advert to this part of the subject, Mr Editor, were it not that the public may indee of the transfer ages. the public may judge of the truthfulness of Outsider's whole effusion by knowing how matters are misropresented and the public OBSERVER.

A REQUISITE SUPPLIED .- To avoid the ne cessity which has heretolose existed of send-ing to San Francisco to have ficished Bookbinding, Robert Wiliams has by study, ap-plication and practice in the largest estab-lishments in California, perfected himself in the art of Bookbindieg and Ruling, both plain and ornamental, and is supplied with all the necessary material and machinery. Always to be found at T.N. Hibben & Co's.\*

### Malaria!

Chills and fever, fever and ague, and every kend of intermittent and remittent fever, spring from one cause, viz: Inhalation of malaria, or miasma, which vitiates and depraves the biliary accrations, and deranges the natural action of the stomach and liver, and produces the above discases. Bristol's Sarsaparilla and Pills are the surest and safest of all correctors and invigoratore of the liver and stomach. They are a certain cure for malarial diseases.

FELL's Coffee, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout

#### Caution.

The Fashionable World and all purchasers of Florida Waler, should be careful to see that they get the true "Murray & Lamman's Florida Water." All other preparations under the nam of Florida Water are comparatively worthless, and possess none of the virtues of the genuine article which is prepared only by Lamman & Kemp, New York, sole proprietors.

DECIDEDLY BUSY .- The rush of people to Noltemen's Boot and Shoe Store, adjoining the St Nicholas Hotel, is unprecedented, and the cry is... Still they come. The goods were sold lower than ever before, and the closing out sale will be continued this week at a still greater reduction.

### RELIEF AT LAST!

"I have suffered much from diziness or vertigo. Thee bottles of Bitstol's Sarsparilla and two phials of Pills entirely cured me."

R. T. COLEMAN, Idaho City.

A CLEAN, SMOTH SKIN.

"My blood and humors were in a very bad state painful sores broke out all over my body and limbs. Seven weeks' use of Bristol's Sarsaparilla and Pills made me a new men, with as clean and smooth a skin as any one could nave."
